

Sewing
machine

How to...

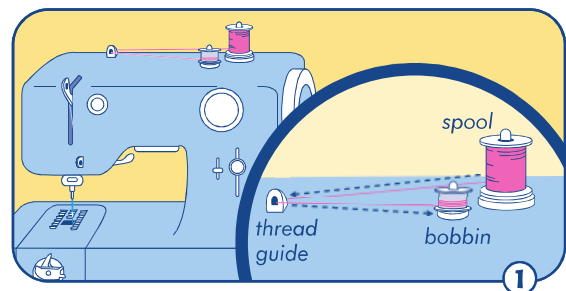

Fill the bobbin

Sewing machines use two different threads — the top spool and the bottom bobbin. When the machine goes, both threads join together to make a stitch!

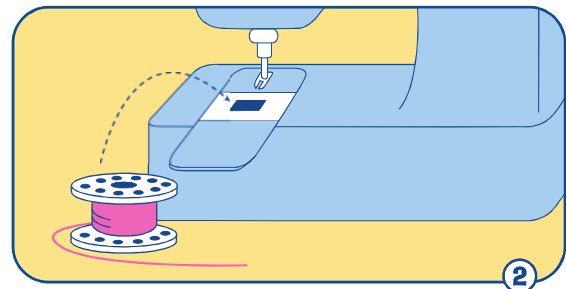

STEP 1

Follow the thread guides from the spool to the bobbin winder and wind thread onto your bobbin.

STEP 2

Put the bobbin in the bobbin case...

STEP 3

...and then turn the wheel to bring the bobbin thread up through the needle hole.
